# Trade-marks Journal
# Vol. 62 No. 3190

## General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

## Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

## Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

## Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

## Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

## Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

constructing machines; machines for the textile industry; rail-laying machines; bottle capping machines; bottle stoppering machines; packaging machines; blowing machines or fans for the compression, sucking and carrying of grain; waste compacting machines; heel-making machines; die-stamping machines; stamping machines; darning machines; milking machines; drainage machines; wrapping machines; grain separators; bookbinding machines for industrial use; electric cleaning appliances utilizing steam, namely dishwashers and clothing dryers; electric machines and apparatus for carpet shampooing, electric polishing machines and apparatus; sizing machines; punching presses; riveting machines; kitchen appliances, namely mixers and food blenders; foundry machines, namely injection molding machines; smoothing presses; fleshing machines; flour mill machines; type-setting machines [printing]; hemming machines; grating machines for vegetables; braiding machines; wringing machines for laundry; steam engines; printing machines for use on sheet metal for commercial and industrial use; rotary printing presses; compressed air machines; spinning wheels; bottle filling machines; mabines for making friezes; metal working machines, namely cutters; agricultural machines, namely cultivators, harvestors, disk arrows, and seeders; sorting machines for industrial use; stitching machines; washing machines; washing machines [laundry]; coin-operated washing machines; spinning frames; non-heated spin driers; looms; kneading machines; typographic machines; type-setting machines [photocomposition]; beating machines, namely sprinklers and fire extinguishers; packing machines; molding machines; carding machines; sewing machines; typecasting machines; electromechanical machines for chemical industry; labellers [machines]; mills [machines]; mills for household purposes, other than hand-operated; pepper mills other than hand-operated; centrifugal mills; machine wheelwork; industrial machine feeders; forge bellows; concrete and asphalt mixer machines; food mixers; blenders, electric, for household purposes; vacuum cleaner bags; threshing machines; pneumatic hammers; hammers [parts of machines]; tilt hammers; power hammers;mechanical reeling apparatus for use with paper making machines; power-operated motorized cultivators; motors for boats; clutches for power transmission machines other than for land vehicles; meat choppers [ machines]; superchargers; brake linings other than for vehicles; machine parts, namely guides for machines; vacuum cleaner attachments for disseminating perfumes and disinfectants; pumps [ parts of machines, engines or motors]; aerating pumps for aquaria; vacuum pumps [machines]; compressed air pumps; pumps for heating installations; beer pumps; lubricating pumps; fuel dispensing pumps for service stations; centrifugal pumps; blades as parts of machines; knives for mowing machines; chaff cutter blades; knives, electric; shears, electric; scissors, electric; bearing brackets for machines; sewage pulverisers for industrial and commercial aaplications; tractor-towed agricultural implements; steam traps; chucks [parts of machines]; drill chucks [parts of machines]; exhaust manifold for engines; soldering irons, gas-operated; soldering irons, electric; superheaters; reduction gears other than for land vehicles; saws [machines]; chain saws; glue guns, electric; compressed air guns for the extrusion of mastics; carburetter feeders; feeding apparatus for engine boilers; loading ramps; ploughs; pneumatic transporters; pneumatic controls for machines, motors and engines; mounting hangers being parts of machines; anti- friction bearings for machines; bearings for transmission shafts; elevators [lifts]; drain jetter lifts; pulleys as parts of machines; saw blades [parts of machines]; pistons [parts of machines or engines]; shock absorber plungers [parts of machines]; pistons for engines; pistons for cylinders; catalytic converters; torque converters other than for land vehicles; fuel conversion apparatus for internal combustion engines; machine presses for industrial use; wine presses; basket presses; fodder presses; printing presses; typographic presses; swaging machines; pedal drives for sewing machines; steam cleaning appliances; food processors, electric; springs as parts of machines; spinning wheels; punches for punching machines; vacuum cleaners; tambours for embroidery machines; radiators [cooling] for motors and engines; sewage pulverizers; air brushes for applying colour; regulators as parts of machines; pressure regulators [parts of machines]; feedwater regulators; speed governors for

machines, engines and motors; knives as parts of power-operated machines; cutting blow pipes, gas-operated; blade holders [parts of machines]; loom shafts; gears for weaving looms; belts for machines; elevator belts; fan belts for motors and engines; dynamo belts; belts for motors and engines; adhesive bands for pulleys; sifters as machine parts; industrial robots; kick starters for motorcycles; stuffing boxes [parts of machines]; paper feeders [printing]; whisks, electric, for household purposes; sparking plugs for internal combustion engines; glow plugs for Diesel engines ; tedding machines; separators; steam/oil separators; cream/milk separators; ball rings for bearings ; sowers [machines]; snow ploughs; sheaf-binding machines; Shaft couplings [machines]; fruit presses, electric, for household purposes; chaff cutters; teat cups [suction cups] for milking machines; stands for machines; die-cutting and tapping machines; woodworking machines; sharpening machines; bicycle assembling machines; mortising machines; stone working machines; metalworking machines; threading machines; planing machines; milling machines; trueing machines; metal drawing machines; rolling mills; starters for motors and engines; stators as parts of machines; glaziers' diamonds [parts of machines]; tables as machine parts; derricks; slide rests as parts of machines; machine couplings other than for land vehicles; heat exchangers [parts of machines]; transmissions for machines; boiler tubes [parts of machines]; wind turbines; hydraulic turbines; turbines other than for land vehicles; turbocompressors; connecting rods for machines, motors and engines; cardan and sealing joints as parts of engines; central vacuum cleaning installations; suction machines for industrial use; washing installations for vehicles; degreasing machines; dust exhausting installations for cleaning purposes; mineral water making machines; sifting installations for industrial purposes; pneumatic tube conveyors; dust removing installations for cleaning purposes; mechanized condensing installations; lifting apparatus, namely cranes; air suction machines; dividing machines; igniting devices for internal combustion engines; door closers , electric; washing apparatus, namely washing installations for vehicles, bottle washing machines, dishwashers, coin-operated washing machines for laundry, and multi-purpose high pressure washers; sheaf-binding machines for hay; extractors for mines; door openers, electric; hydraulic door openers and closers [parts of machines]; pneumatic door openers and closers [parts of machines]; adhesive tape dispensers [machines]; anti-pollution devices for motors and engines; beverage preparation machines, electromechanical; food preparation machines, electromechanical; elevators; pneumatic and hydraulic controls for machines, engines and motors; shoe polishers, electric; electric machines waxing floors; air cushion devices being parts of earth moving machines in the nature of loaders; aprons [parts of machines]; filter presses; oil gas and air filters as parts of machines or engines; filters for cleaning cooling air, for engines; molds as parts of machines; printing plates; journals as parts of machines; centrifugal machines; elevator chains [parts of machines]; cylinders for motors and engines; cylinders for machines; printing cylinders; shuttles [ parts of machines]; universal joints [Cardan joints]; pulleys [parts of machines]; vacuum cleaner hoses; dynamo brushes; electrically operated brushes; carbon brushes [electricity]; fuel economisers for motors and engines; excavators; shovels, mechanical; agricultural elevators; electrodes for welding machines; electric hammers; parquet wax-polishers, electric; cartridges for industrial filtering machines; moving staircases [escalators]; automatic grapnels for marine purposes; Pestles for pounding; Razors, electric or non-electric; Scythe stones; Knife steels; Carpenters' augers; Table forks; Forks; Weeding forks [hand tools]; Lawn clippers [hand instruments]; Harpoons; Harpoons for fishing; Nail extractors; Sand trap rakes; Whetstone holders; Bushhammers; power drills; mechanized bludgeons for machines; Clamps for carpenters or coopers; Rabbeting planes; mechanized chisels for machines; Engraving needles; Cutlery; Numbering punches; Goffering irons; electric and non-electric depilation appliances; sharpening machines and mechanized blade sharpening stropping machines; Nail clippers, electric or non-electric; Oyster openers; Glazing irons; Ear-piercing apparatus; Apparatus and instruments for Skinning butcher's animals; Sharpening stones; Knuckle dusters; trowels;Daggers; Pickaxes; Pliers

; blades as weapons; Annular screw plates; Tap wrenches; Ladles for wine; breast drills; Scythe rings; Scythes; Hainault scythes; Fire irons; Emery grinding wheels; Sledgehammers; Tree pruners; Ice picks; Razor blades; Blades for planes; Plane irons; Jig-saws; Spoons; Crow bars; Machetes; Beard clippers; Hair clippers for personal use, electric and nonelectric; Swords; Stone hammers; Masons' hammers; Mattocks; Manicure sets; Manicure sets, electric; Pedicure sets; Needle files; Emery files; Hand pumps; Shaving cases; Needle-threaders; Cheese slicers, non-electric; Egg slicers, non-electric; Pizza cutters, non-electric; Scaling knives; Molding irons; Can openers, non-electric; Farriers' knives; Budding knives; Hunting knives; Penknives; Bill-hooks; Paring knives; household knives, huntimh knives, kitchen knives, garden knives, and knives for industrial use; Cleavers; Wick trimmers [scissors]; Cattle shearers; Border shears; Pruning shears; Shears; Shearers [hand instruments]; Scissors; Sword scabbards; Vegetable knives; mechanized blade sharpening stropping machines; Screwdrivers; Sabres; Reamer sockets; Nail files; Nail files, electric; Bow saws; Tweezers; Hair-removing tweezers; compressed air guns for the extrusion of mastics; Shear blades; Tool belts [holders]; Table cutlery [knives, forks and spoons]; Vegetable choppers; Money scoops; Fingernail polishers, electric or non-electric; Pin punches; Nail punches; Syringes for spraying insecticides; Reamers; Frames for handsaws; Saw holders; electric shaft cutters and cutters for metal working machines; Razor strops; Leather strops; Marline spikes; mechanical extractors for mines, namely borers; elector machines, namely borers; Pruning scissors ; silver platedknives, forks and spoons; Pruning knives; Sickles; Drawing knives; Trowels [ gardening]; Mortise chisels; Caulking irons; Mortars for pounding; Branding irons; Hatchets; Vices; Axes; Holing axes; Extension pieces for braces for screwtaps; apparatus and instruments for slaughtering buthers' animals, namely knives; Razor cases; Awls; vegetable choppers; Palette knives; Bayonets; Nippers; Curling tongs; Nutcrackers; Nail nippers; Sugar tongs; Cuticle nippers; Eyelash curlers; DVD players; dispensers for parking, lottery and admission tickets; coin-operated juke boxes; answering machines; motor fire engines; electric accumulators; accumulators, electric, for vehicles; actinometers; alidades; altimeters; ammeters; anemometers; anodes; antennas; anticathodes; apertometers [optics]; testing apparatus for concrete, computer components, and metal strength; remote controls for telemeters; microscopes for diffracton apparatus; apparatus to check franking, namely telemeters; breathing apparatus for underwater swimming; cash registers; ntercoms; stills for laboratory experiments; luminous beacons and mechanical road signs; stereoscopes and stroboscopes; telephone receivers; facsimile machines; acid hydrometers; salinometers; acidimeters for batteries; aerometers; beacons, luminous; battery jars; barometers; anode batteries; galvanic batteries; batteries for lighting; solar batteries; batteries, electric; steelyards balances; betatrons; binoculars; electronic tags for goods; lens hoods; magnetic tape units for computers; computer peripherals, namely memory devices and USB flash drives; fire hose nozzles; encoded identification bracelets, magnetic; Safety tarpaulins; signalling buoys; life buoys; marking buoys; directional compasses; vacuum gauges; electrolysers; variometers; verniers; letter scales; weighing machines, namely weighbridges; precision balances; levelling staffs [surveying instruments]; camcorders; video cassettes; video telephones; video screens; viewfinders, photographic; electric reamer sockets; micrometer screws for optical instruments; viscosimeters; circuit closers; wavemeters; voltmeters; electrical switchboxes; hygrometers; hydrometers; test weights; peepholes [magnifying lenses] for doors; holograms; loudspeakers; sounding leads; plumb bobs; range finders; densimeters; densitometers; optical glass, namely lenses for eyeglasses, optical condensers, optical lamps, optical character readers, optical lenses and optical magnifying glasses; carbon-dioxide detectors and metal detectors for industrial or military use; smoke detectors; counterfeit [false] coin detectors; transparencies [photography]; slide projectors; diaphragms [photography]; dictating machines; dynamometers; light-emitting diodes [LED]; blank floppy disks; blank magnetic recording media, namely sound recording discs; blank compact disks; blank optical discs; disk drives for computers; juke boxes for computers; DNA chips; electronic

notice boards; bullet-proof waistcoats [vests (Am.)]; life jackets; identification threads for electric wires; nose clips for divers and swimmers; alarm bells, electric; electric door bells; signal bells; acoustic conduits; mirrors for inspecting work; road signs, luminous or mechanical; mechanical signs; signs, luminous; marine depth finders; ultrasound probes for scientific use; electric buzzers; needles for record players; tape measures; simulators for the steering and control of vehicles; electrical inverters; pressure indicators; temperature indicators; incubators for bacteria culture; measuring instruments, namely calipers for measuring trees, magnetic compasses, meters for measuring electricity, telemeters, measuring spoons, tread counters in the nature of screw-measuring machines, electronic spectrometers for use in identifying and measuring colors, meters for checking exposure to light, jiggers used as measuring instruments, gasometers used as measuring instrument, apparatus used in measuring the nature of bevels, angle finders and laser distance meters, indicators for measuring the loss of electricity, clamp meters for measuring electricity, graduated rulers as measuring instruments, verniers, measuring glassware, protractors; cosmographic instruments, namely radio and zenith telescopes; mathematical instruments, namely calculators; leveling staff for surveying; surveying instruments; azimuth instruments for measuring angles; interfaces for computers; ionization apparatus not for the treatment of air or water; spark-guards; coaxial cables; fibre [fiber (Am.)] optic cables; cables, electric; slide calipers; screw-tapping gauges; calculating machines; pocket calculators; decompression chambers; cinematographic cameras; electronic pens [visual display units]; holders for electric coils; identity cards, magnetic; video game cartridges; encoded magnetic cards; riding helmets; protective helmets; carriers for dark plates [photography]; automated teller machines [ATM]; cathodes; spools [photography]; choking coils [impedance]; Coils, electric; electromagnetic coils; cinematographic film, exposed; computer keyboards; solenoid valves [electromagnetic switches]; wire connectors [ electricity]; electronic agendas; push buttons for bells; mouse pads; magnetic encoders; anti-glare visors; electric collectors in the nature of photovoltaic cells; calibrating rings, namely industrial calibration sensors; protective suits for aviators; commutators as switches; pre-recorded audio and video compact discts; blank ROM compact discs; comparators; marine compasses; computers; laptop computers; notebook computers; air condensers, aero condensers, steam condensors as parts of machines and optical condensers; electric contacts; wind socks for indicating wind direction ; branch boxes [electricity]; distribution boxes [electricity]; junction boxes [electricity]; battery boxes; cabinets for loudspeakers; diving suits; asbestos clothing for protection against fire; galena crystals sensors or use in electronics; reflecting discs for wear, for the prevention of traffic accidents; covers for electric outlets; lasers, not for medical purposes; lactodensimeters; lactometers; vacuum tubes [ radio]; darkroom lamps [photography]; thermionic tubes; amplifying tubes; flashlights [photography]; head cleaning tapes [recording]; blank magnetic recording tapes; blank video tapes; surveying chains; fire escapes; rulers [measuring instruments]; slide-rules; contact lenses; correcting lenses [ optics]; optical lenses; optical condensers; sounding lines; electricity conduits; measuring spoons; magnifying glasses [optics]; thread counters; utility magnets; decorative magnets; crash test dummies; resuscitation mannequins [teaching apparatus]; mouse [data processing equipment]; pressure gauges; divers' masks; Solderers' helmets; protective masks for workers; materials for electricity mains, namely wires and cables; accounting machines; voting machines; money counting and sorting machines; gas testing instruments; furniture especially made for laboratories; megaphones; MP3 players, CD and DVD players; diaphragms [acoustics]; diaphragms for scientific apparatus; metal detectors for industrial or military purposes; metronomes; rules [measuring instruments]; carpenters' rules; dressmakers' measures; mechanisms for coin-operated apparatus; coin-operated mechanisms for television sets; shutter releases [photography]; micrometers; microprocessors; microscopes; microtomes; microphones; modems; lightning conductors [rods]; monitors [computer hardware]; monitors [computer programs]; multi-fumctional electronic payment terminals; junction sleeves for electric cables; cases fitted with dissecting instruments [microscopy];

teeth protectors; knee-pads for workers; headphones; surveyors' levels; blank magnetic data recording media; blank optical data recording media; socks, electrically heated; computer software for use in database management and electronic storage of data, pre-recorded computer operating software, downloadable software for use in database management and in electronic storage of data ; computer game software; sheaths for electric cables; identification sheaths for electric wires; punched card machines for offices; life belts and bullet proof vests; shoes for protection against accidents, irradiation and fire; lenses, namely objectives; lenses for astrophotography; egg-candlers; fire extinguishers; electrified fences; electricity limiters; clothing for protection against accidents, irradiation and fire; clothing for protection against fire; asbestos clothing for protection against fire; clothing especially made for laboratories; ozonisers [ozonators]; octants; ohmmeters; wrist rests for use with computers; spectacle frames; eyeglass frames; oscillographs; plumb lines; mirrors for scientific and technical apparatus and mirrors for inspecting work; spectacles [optics]; sunglasses; goggles for sports; luminous or mechanical sign panels; radio pagers; pince-nez; electronic pocket translators; telephone transmitters; transmitters of electronic signals; electric switches; Periscopes; gloves for divers; asbestos gloves for protection against fire accidents; gloves for protection against X-rays for industrial purposes; asbestos gloves for protection against accidents; furnaces for laboratory use; pipettes; pyrometers; planimeters; plane tables [surveying instruments]; plates for batteries; wafers [silicon slices]; printed circuit boards; compact disc players ; cassette players; sound recording strips; X- ray films, exposed; exposed cinematographic films, exposed X-ray films, exposed photographic films; life-saving rafts; laboratory trays; semi-conductors; polarimeters; fire engines; life belts; electrical fuses, automotive fuses, and fuses for explosives; Circuit breakers; electric converters; speedometers for vehicles; mannequins as teaching apparatus in the field of resuscitation; hemline markers; apparatus and instruments for astronomy, namely spectrographs;surveying instruments; weighing instruments;navigational buoys, navigation equipment namely, sounding leads in the nature of lead weights at the end of sounding lines, navigational apparatus for vehicles, namely onboard computers, and satellite navigational apparatus, namely global positional systems; boiler control instruments; meteorological instruments ; navigation apparatus for vehicles [on-board computers]; precision balances; audio- and video-receivers; prisms for optics purposes; printers for use with computers; hemline markers; retorts' stands; drainers for use in photography; sighting telescopes for firearms; test tubes; pressure indicator plugs for valves; magnetic wires; telegraph wires; telephone wires; wires, electric ; electric conductors; copper wire, insulated; fuse wire; computer game programs; computer operating programs, recorded; record players; processors [central processing units]; rods for water diviners; distribution consoles [electricity]; control panels [electricity]; masts for wireless aerials; radios; vehicle radios; sprinkler systems for fire protection; frames for photographic transparencies; screens for photoengraving; walkie-talkies; voltage surge protectors; voltage regulators for vehicles ; stage lighting regulators; light dimmers [regulators], electric; speed regulators for record players; cell switches [electricity]; washing trays [photography]; marking gauges [joinery]; time switches, automatic; electric relays; X-ray photographs, other than for medical purposes; rheostats; respirators for filtering air; respiratory masks, other than for artificial respiration; retorts for use in high temperature chemical reactions; refractometers; Grids for batteries; speaking tubes, namey megaphones; horns for loudspeakers; saccharometers; optical fibers [fibres] [light conducting filaments]; dog whistles; signalling whistles; sextants; electrical inductors; safety nets; nets for protection against accidents; fire alarms; luminous or mechanical signals; sirens; scanners [data processing equipment]; integrated circuits, integrated circuit chips, boards for integrated circuits, and smart cards as integrated circuit cards; connections for electric lines; couplings, electric; connectors [electricity]; sonars; sound locating instruments; lighting ballasts; resistances, electric; spectrographs; spectroscopes; alcoholmeters; satellites for scientific purposes; radiotelegraphy sets; radiotelephony sets; spectacle glasses; glass covered with an electrical conductor; anti-glare

glasses; optical glass; personal stereos; stereoscopes; stands for photographic apparatus; fire boats; sulphitometers; drying racks [photography]; spherometers; integrated circuits; printed circuits ; tire revolution counters; parking meters; kilometer recorders for vehicles; revolution counters; abacuses; Egg timers [sandglasses]; taximeters; ear plugs for divers; tachometers; word processors; television receivers; telescopes; teleprompters; teleprinters; portable telephones; theodolites; thermometers, not for medical purposes; thermostats; thermostats for vehicles; crucibles [laboratory]; tone arms for record players; totalizators; transistors [electronic]; transponders; protractors [measuring instruments]; transformers [electricity]; step-up transformers; vehicle breakdown warning triangles; triodes; starter cables for motors; discharge tubes, electric, other than for lighting; capillary tubes; neon signs; X-ray tubes not for medical purposes; telephone receivers; level and cross beam depth gauges, marking gauges for joinery purposes, gasoline gauges, pressure gauges, leveling instruments namely level gauges, micrometer gauges, screw tapping gauges, vacuum gauges; quantity indicators, namely measuring apparatus in the nature of bevels, angle finder and laser distance meters; automatic indicators of low pressure in vehicle tires [tyres]; gasoline gauges; water level indicators; electric loss indicators; light-emitting electronic pointers; slope indicators; levels [instruments for determining the horizontal]; mercury levels; spirit levels; urinometers; particle accelerators; electric installations for the remote control of industrial operations; automatic vehicle steering systems; video recorders; invoicing machines; tape recorders; railway traffic safety appliances; electric theft prevention installations; editing appliances for cinematographic films; drying racks for photographic prints; optical character readers;machines for dispensing pre-determined dosages of medication; battery chargers; chargers for electric batteries; Acoustic [sound] alarms; editing appliances for cinematographic films; electronic cathodic anti-corrosion apparatus, namely anodes for the prevention of electolytic corrosion; couplers as data processing equipment; anti-interference devices (electricity), namely anti-glare spectacles; acoustic couplers; fire alarms, sound alarms and anti-intrusion alarms; fog signals, non-explosive; whistle alarms; adding machines; data processing equipment, namely data readers, optical character readers; heat regulating apparatus namely thermostats; photocopiers [photographic, electrostatic, thermic]; bar code readers; downloadable ring tones for mobile phones; downloadable image files; downloadable music files; animated cartoons; filters for photography; filters for respiratory masks; filters for ultraviolet rays, for photography; magic lanterns; optical lamps; signal lanterns; shutters [photography]; darkrooms [photography]; Photometers; flash-bulbs [photography] ; photovoltaic cells; containers for contact lenses; spectacle cases; pince-nez cases; containers for microscope slides; cases especially made for photographic apparatus and instruments; laboratory centrifuges; eyeglass chains; cyclotrons; directional compasses, marine compasses, measuring instruments, namely magnetic compasses; frequency meters; time clocks as time recording devices; fire blankets; integrated circuit chips; pedometers; meteorological balloons; electrified rails for mounting spot lights; asbestos screens for firemen; fire hose; protective helmets for sports; cell phone straps; eyeglass cords; tripods for cameras; switchboards; distribution boards [electricity]; projection screens for photography; workmen's protective face-shields; projection screens; radiology screens for industrial purposes; fluorescent screens; exposure meters [light meters]; electricity ducts; galvanic cells; epidiascopes; ergometers; armatures [electricity].

## GOODS

(1) Paints, varnishes, lacquers, and preservatives used in connection with asset protection and to protect against rust and against deterioration of infrastructure.

(2) Surveying equipment, namely marine and land seismographs, magnetometers, photogrammetric work stations; devices for measuring the levels of oil and gas, meters used to measure the flow of oil and gas; fire protective clothing; radiation protective clothing, chemical exposure protective clothing; safety clothing for use in the oils and gas industry namely, coveralls for protection against fire and chemicals; fire extinguishers; fire detectors; smoke detectors; computer software and manuals distributed therewith for oil and gas reservoir analysis; computer software for the collection of statistical production data for oil and gas field operations; computer software for project management, namely software to manage documents and software to create and manage timetables, software for use in database management, software for use in the engineering fields; computer software for engineering, engineering design, technical calculations and modelling; computer software for power plant operations and maintenance; computer software for engineering of instrumentation, control and electrical systems for use in relation to oil and gas surveying, exploration, drilling and production; electronic publications namely electronic leaflets, electronic articles, electronic books and electronic magazines; telecommunications apparatus namely, computer hardware, computer cables, fibre optic cables, very small aperture terminal ( VSAT), satellite dishes, antenna, namely aerials, two way radios, telephones; computer hardware and computer software for the monitoring and remote control of flow measurement, leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; computer software, hardware and firmware for the collation, input, output, display, analysis, reporting and generation of information data and reports relating to the oil and gas and renewable energy industries; electric power generators; gas operated power generators; wind turbine power generators; pumps and compressors as parts of machines, motors and engines; uninterruptible power supplies; safety systems and safety apparatus, all being for use in the oil, gas and renewable energy industries namely safety valves, safety joints, locks, flow control devices, isolation valves, flotation devices for measuring the levels of oils and gas, monitoring devices for tracking the flow of oil and gas through pipelines and wells, packing devices used in sealing oil and gas wells and pipelines, cables, retainers, stabilizers, seals, plugs, control mechanisms for use in machines, liquid level sensors, pressure sensors, thermal sensors, and temperature sensors, apparatus used to control the flow of oil and gas through wells and pipelines, vibration detectors, anchors; fire alarms; alarms for the detection of inflammable gases; navigation aids, apparatus, instrumentation and systems, namely, lanterns, explosive fog signals, marine luminous safety beacons, marine luminous warning beacons, radar receivers with amplifiers; remote monitoring and control systems comprised of computer hardware and computer software for the monitoring and remote control of fluid flow measurement, gas leak detection, alarm reporting, pump speed, valve position and pressure instrumentation for use in relation to oil and gas surveying, exploration, drilling and production; apparatus comprised of computer hardware and computer software for the monitoring for the remote observation and operation of oil and gas drilling machinery, pipelines and wells, flow meters used to measure the flow of oil and gas through wells and pipelines, thermometers; micro-processor controlled rig-floor monitors which monitor and display various drilling functions with alarms; electronic pit volume totalizers and return flow sensors for use in blow-out prevention or monitoring of drilling fluid pressure, temperature, viscosity , and composition; page party alarm systems; pneumatic and electrical safety systems comprised of pneumatic pumps, pneumatic hoists, pressure relief valves, safety valves, stop valves, valves for industrial machinery, all for use in the field of oil and gas exploration.

## SERVICES

(1) Generation of gas and electricity; generation of electricity; generation of electricity from thermal sources; rental of power generators; rental of turbines (being generators); rental of gas turbines for power generation; rental of power generating equipment; consultancy services relating to the production of electrical power; rental of air conditioners; rental of air conditioning installations for buildings; printing services; waste recycling; consulting in the field of workplace health and safety; risk management consulting services in the field of workplace health and safety; development and management of workplace health and safety programs; consulting in the field of workplace health and safety; conducting hazard and operability studies/hazard identification in the fields of oil and gas exploration and production; business facility and site auditing and third party inspections; environmental and workplace health and safety auditing for regulatory compliance; operational support services namely environmental health and safety management and inspection services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification and legal requirements, information and advisory services relating to the aforesaid services; rental of workplace safety equipment for use in oil and gas field operations; alarm monitoring services; monitoring of security systems.

(2) Business and management services in the fields of engineering, procurement, construction management, operational support and facility management for oil and gas production, transportation and processing facilities; business management services for the development of projects from concept to realisation, commissioning and operation; business services relating to the commissioning of projects in the oil and gas industries, automotive industries, consumer products, pulp and paper, pharmaceuticals, chemicals and polymers, refineries and petrochemicals; business management services to bring together groups of individuals, companies, contractors and institutions to facilitate and implement projects; procurement services relating to materials, equipment and services relating to the oil and gas industry; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production; cost estimation services related to the fields of oil and gas exploration and production; business administration services and business management for the compliance of projects with regulations; business administration and business management services for strategic planning and implementation; business services and business management of facilities for process and industrial plants; lifecycle cost analysis and project duration management services for others in the fields of oil and gas exploration and production; provision of business efficiency techniques relating to processes and industrial plants; estimation services (business management) for industrial plants and processes and construction thereof; provision of strategic business planning; provision of cost analysis services for others in the fields of oil and gas exploration and production; business risk assessment services; risk management services; business management advice in the field of project funding; business management advice in the field of financial planning for projects; financial planning advisory services; business risk assessment services; business management assistance for commercial companies; business management of contractors and third parties involved in the construction, implementation, commissioning and operation of engineering projects; procurement for others of engineering services for a third party; personnel management; business management consultancy services; business appraisals; supply chain appraisals for others in the fields of oil and gas exploration and production; supply chain management for others in the fields of oil and gas exploration and production; project cost management and estimation relating to projects in the fields of oil and gas exploration and production; investment advisory services; investment management; business advisory services for the optimisation of process and industrial plant assets and for the planning of resources; asset optimisation and resource planning and technology

assessment all being business services for the management of process and industrial plant projects; evaluation of business practices and techniques; online supply and procurement for others of goods and services related to the fields of oil and gas exploration and production, namely, procurement of buildings, construction and engineering services, engineering personnel and technical resources; business services for initiating projects for others; business services for facilitating the handover of a project to others; project scheduling services related to projects in the fields of oil and gas exploration and production; support services in the form of business advisory services given to third parties; vendor management services for others in the fields of oil and gas exploration and production; consultancy services in relation to business document management and data management related to projects in the fields of oil and gas exploration and production; data processing services; business management services to facilitate turnkey operations; provision of commercial models (business advice) for process and industrial plant projects; provision of emergency management services; personnel administration support services; personnel recruitment, screening and placement; testing to determine employment skills; payroll services; preparation of payrolls (for others); visa/work permit administration services; taxation consultation advice and consultancy services; provision of business and management services for the reduction of costs, improvement of schedules, management of risk, maximisation of safety and delivery of critical project objectives; retail and wholesale services connected with the sale of safety systems, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; advice and information in the field of oil and gas exploration and production; building, construction, installation, maintenance, repair, cleaning, commissioning, decommissioning services in the oil and gas and renewable energy industries, automotive industry, consumer products industries, pulp and paper industries, pharmaceutical industries, chemical and polymers refineries and petrochemical plants and installations; engineering project management relating to the design, building, construction, commissioning and engineering operations for industrial and process plants; construction project management services in the fields of oil and gas exploration and production; provision of fire engineering services; civil engineering; construction services in relation to the fields of oil and gas exploration and production; civil engineering consultancy (construction); civil engineering underwater construction services; installation of oil well drilling and pumping equipment; installation of equipment and machinery used in oil exploration; well completion and remedial services; cleaning of oil and gas drilling equipment and facilities; technical consulting services relating to the installation of process and industrial plants in the oil and gas industry; repair of pipelines; civil engineering maintenance services; welding services for the repair of oil and gas exploration and production equipment and machinery; installation, cleaning , repair and maintenance of oil and gas exploration and extraction equipment; oil and gas drilling services; oil and gas well drilling services; rental of oil and gas well drilling equipment; rental of tools and plant equipment for oil and gas well construction and extraction; engineering feasibility and prefeasibility studies, namely providing advice concerning services relating to building, construction and engineering projects in the field of oil and gas exploration and production; management of contractors, consultants and third parties involved in building, construction and commissioning and implementation of engineering projects; building construction services, building construction supervision, building management supervision; maintenance, namely maintenance planning, reliability centered maintenance, maintenance optimization and maintenance management of installations and facilities in the field of oil and gas production and exploration; oilfield surveying; surveying services, namely, oil and gas well surveying, surveying of oil-bearing seams, imaging services in connection with oil and gas exploration, fire engineering surveys, energy surveys and flare surveys, flare surveys associated with oil wells; oil well prospecting and oil field location analysis; support services being construction advice given to owners of initiated

building, construction and engineering projects; aircraft maintenance and repair services; turbine repair, maintenance, overhaul and upgrade services; industrial and aviation turbine repair, maintenance, overhaul and upgrade services; electrical appliance installation, maintenance and repair services; installation, maintenance and repair of fire alarm systems and fire extinguishers; fire protection and detection services; installation, maintenance and repair of pumps namely vacuum, suction, rotary and piston pumps for gases, liquefied gases and hydraulic liquids, heat pumps, hydraulic pumps, oil pumps, gas pumps, hydraulic pumps for use in connection with oil wells and pipelines; repair, maintenance, overhaul of equipment for use in oil and gas exploration, drilling, retrieval and production; information services relating to the repair of equipment and machinery for use in oil and gas exploration, drilling, retrieval and production; repair and maintenance of oil and gas drilling equipment and facilities; underwater repair services for the repair of oil and gas wells and pipelines; maintenance and overhaul of compressors, pumps, generators and rotating equipment; provision of integrated solutions for the maintenance, repair, overhaul and upgrade of rotating equipment in the oil and gas and power generation industries; repair and maintenance of pumps, compressors, gear boxes, power turbines, reciprocating engines , diesel engines, internal combustion engines, controls and instrumentation, all for use in the field of oil and gas production and exploration; gas turbine overhaul services; inspection of oil and gas exploration, extraction and production installations prior to repair; rental of machine tools for use in the repair and maintenance of oil and gas exploration, extraction and production installations; rental of air compressors; rental of industrial plants and machine tools for use in the repair of oil and gas exploration, extraction and production installations; project management relating to the repair of oil and gas exploration, extraction and production installations; installation, construction, maintenance, servicing and repair of energy and power generating machinery; installation, maintenance and repair of workplace safety equipment for use in oil and gas field operations, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; transport of machinery used in oil and gas field operations by truck and by rail; transportation of materials, machinery and personnel by air, sea, road and rail; delivery of goods by truck and by air; transportation logistics services, namely, planning and scheduling of drilling rigs and vessels used in oil and gas exploration and production; transmission of oil and gas through pipelines; warehouse planning and management; packaging of articles for transportation; freight transportation by truck, train and plane; conducting of educational courses and training, namely, engineering and workplace health and safety courses in the field oil and gas field operations; providing workplace safety training in the fields of oil and gas exploration and oil and gas extraction and production; providing on the job safety training for use in onshore and offshore oil and gas exploration, extraction and production environments; the preparation and conduct of training programs for training operators in the use of equipment used in manufacturing and resource industries; the preparation and conduct of training programs in relation to the installation and maintenance of safety equipment used in the repair and maintenance of oil and gas drilling equipment and facilities; provision of training for maintenance planning and scheduling in the fields of oil and gas exploration and production; arranging and conducting conferences, seminars and exhibitions in the field of oil and gas exploration, drilling and production; providing education and instruction services in relation to engineering and workplace health and safety in the field of oil and gas exploration, drilling and production; publication of books and manuals, printed matter and text; production of workplace safety training videotapes and video tape recordings in the field of oil and gas exploration, drilling and production; information relating to training and education in relation to engineering and workplace health and safety in the fields of oil and gas exploration and production provided online from a computer database or the internet; providing online electronic publications ( not downloadable) online from databases and the internet; publication of multi-media material

online; editing, proof reading and quality control of written material and documents; workplace health and safety document specification; document formatting, amendment and updating, electronic publishing and processing of documents; engineering services namely development and planning of industrial plants, machine plants for power production, heat pumps, energy recovering apparatus, gas plants; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services in the field of environmental compliance; engineering services in connection with the selection and use of specialized equipment for subterranean well drilling operations and providing technical advice on drilling fluids and drilling fluid use and technical advice on data control, products control, and pressure control; providing technological and engineering knowhow in the field of oil and gas production and exploration; research and design services, namely, engineering modeling and design of drilling processes and operation of facilities used in oil and gas exploration and production; design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations, design services relating to the design of engineering projects to maximise value, structural design, mechanical systems design, electrical systems design, control systems design, piping systems design and layout, design of engineering design specifications, all of the aforesaid being in relation to oil and gas exploration, drilling and production; industrial engineering analysis services, namely, cost analysis, risk analysis , being the analysis of risk for others before risk management can be performed, financial feasibility studies, investment analysis, financial cost analysis (lifestyle cost analysis) services; engineering design services in the field of oil and gas exploration and production; engineering concept development and design services in the field of oil and gas exploration and production; engineering feasibility and prefeasibility studies, all being advisory services relating to building, construction and engineering projects; engineering services, namely structural engineering, process engineering, and design and development of equipment, machinery, computers, computer hardware and software for use in the field oil and gas exploration and production, electrical and electronics, mechanical engineering, piping layout, power generation and industrial plants; design and development of computer hardware and software; design and development of computer hardware and software for use in the oil and gas industries and for oil field exploration and searching; exploration and searching for oil and gas; geophysical exploration for oil and gas; providing well pressure testing and control services for others in the oil and gas industries; pressure testing of oil and gas wells; oil and gas well logging and testing; oil and gas exploration and production services; engineering services in the field of oil and gas exploration and production; technical support services for the oil and gas industries; surveying services; surveying services for the oil and gas industries; provision of technical research and support for the oil and gas industries; managing the exploration, production, logistics and operations of gas and oil properties for others; downhole data acquisition; testing of industrial and aviation turbines; provision of workshop facilities for engineering research and design in the field of oil and gas exploration and production; calibration of equipment and machinery used in the field of oil and gas exploration and production; measurement services, namely, providing measurements and downhole telemetry for use in the drilling of oil and gas wells; quality control and auditing services provided for others in the fields of oil and gas exploration, drilling and production; certification services in the field of oil and gas exploration and production; commissioning services in the oil and gas industry namely, environmental health and safety management services, fire engineering, systems integration, installation qualification being technical assessment services, installation qualification services being the assessment of whether an installation meets qualification requirements, providing project management in the oil and gas field, inspection services to ensure equipment and buildings meet health, safety and regulatory standards, performance verification and certification of equipment, systems and buildings in the oil and gas field; oil and gas well environmental analysis for authentication testing; testing of

equipment and machinery in the oil and gas field to ensure compliance with health, safety and regulatory standards; technical testing of network systems for use in the oil and gas field; engineering machinery safety testing services; provision of testing and inspection facilities for oil and gas equipment; material testing services; scientific testing services, namely, oil and gas well testing; engineering testing; engineering testing in the oil and gas industry; engineering testing, namely, data analysis services in the oil and gas industry; laboratory testing of materials; industrial testing of engineering projects, namely, production testing services in the oil and gas field; rental, hiring and leasing of equipment and machinery for use in the oil and gas industries; commissioning of oil wells and gas wells; decommissioning of oil wells and gas wells; research in the field of welding; surveying; oil and gas field surveys; provision of facilities for engineering analysis, testing and research in the field of oil and gas exploration and production; environmental protection services; consultancy services relating to environmental planning and compliance services for others and technological assistance services for procuring environmental permits in the fields of oil and gas exploration, drilling and production; design of oil and gas exploration and production facilities which comply with environmental standards and regulations; geological research and exploration services; geological surveys; land surveying; geological prospecting; operation and control of oil and gas exploration and production; engineering drawing services; computer aided graphic design and computer aided mechanical design services in the oil and gas field; technical writing of documents and reports for engineering projects in the oil and gas field; graphic services; engineering design, research and development services for others; technical research for others in the oil and gas field; civil engineering design services; validation services namely assessment services to ensure that a conceptual idea works and the provision of data to validate a concept, all relating to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering validation services; consultancy services provided to others for the appraisal and selection of licensors and licensor coordination in relation to building, construction, drilling, exploration and engineering projects within the oil and gas industry; engineering design services relating to planning, architecture, civil engineering, mechanical engineering, design engineering, fire engineering, petrochemical engineering and industrial plants; mechanical systems design services; provision of safety advice in relation to engineering and production projects and industrial plants and processes; provision of hazard and operability studies to identify and evaluate problems with equipment and machinery used in oil and gas field operations; design of an industrial control system comprised of computer hardware and software for use in controlling equipment and machinery used in oil and gas field operations; software engineering services; database design and development; design and planning of equipment and plant/building layout used in oil and gas field operations; interior design of plants/buildings used in oil and gas field operations; engineering and technological assistance for procurement of environmental permits; design of automated handling systems for use in material handling in oil and gas field operations; geotechnical engineering services; environmental engineering services; design and layout of pipelines in the oil and gas industry; design of ventilation, heating and air conditioning systems; instrument and process control engineering services in the oil and gas field; design of engineering project specifications; planning of buildings and infrastructure systems for buildings; engineering design and coordination and consultancy services; industrial plant optimisation services; industrial plant operation services; engineering modelling and process modelling, namely, modelling on a computer of processes and the evaluation of such processes in the oil and gas field; computer modeling services, namely, computer simulation of drilling processes and operation of facilities used in oil and gas exploration and production; finite element modelling; finite element analysis services; thermodynamic modelling ; oil field analysis services, namely, interpreting laboratory measurements for modelling processes; process simulation and optimization, namely, the creation for others of simulations of processes and the subsequent optimization of those processes in the oil and gas field; process

troubleshooting, namely, problem and hazard identification through computerized process modelling in the field of oil and gas exploration and production; computational fluid dynamics engineering services; engineering and technological services for the automation of systems and industrial plants; process engineering services; energy auditing services; seismic analysis services, namely, design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations; product design consulting services; managing oil and gas exploration and production plants and sites for safety purposes; conducting technical and engineering due diligence in the oil and gas field; environmental due diligence, namely, the preparation of reports on environmental factors in the oil and gas field; engineering and technical assessment of oil and gas field operations; business evaluation services, namely, benchmarking and technical performance testing in the oil and gas field; inspection and testing of plants, equipment and machinery used in the field of oil exploration and production; consultancy services relating to environmental issues; preparation of technical and engineering operating manuals; engineering and technical development of projects and industrial plants; Materials testing and evaluation; engineering operational support services, namely, environmental health and safety management services, systems integration services, installation qualification and technical assessment services, and installation qualification services, namely, the assessment of whether an installation meets qualification requirements; remote well control system design services; conducting engineering feasibility studies in the fields of oil and gas exploration and production, and renewable energy and power generation; conceptual engineering design services; technical commissioning supervision, namely, performing commissioning reviews on oil and gas facilities and structures; technological services for the automation and control of systems; engineering services, namely, the automation and control of computer operating systems in the oil and gas field; instrumentation and control system engineering; engineering services, namely specification, integration and implementation services in the fields of oil and gas exploration and production; certification services, namely, providing certification on completed projects in the fields of oil and gas exploration and production; technical supervision and inspection in the field of oil and gas exploration, drilling, retrieval and production; technical handover services, namely, business services for transferring an initiated project to its owner and business advisory services given to owners of initiated projects by way of technical support; engineering services, namely, the coordination of permit-to-work systems in the fields of oil and gas exploration and production; engineering audit services in the oil and gas field, namely, performing engineering audit reviews for integrity process status; data collection services in the fields of oil and gas exploration and production; document management in the fields of oil and gas exploration and production; technical writing; civil infrastructure engineering and construction; decommissioning, dismantling, reengineering, installation and commissioning of engineering projects and plants; engineering and technical consultancy services in the fields of oil and gas production, pipeline and processing facilities; design of information systems, namely computer software and databases for use in relation to project management in the fields of oil and gas exploration and production; providing technical information in the field of oil and gas exploration and production; laser scanning services; oil field surveying; technical surveying; engineering plant design management systems; development of interactive multi-media software; software design services for use in the oil and gas industries; software design services for the design and data management of subsea systems, pipelines and risers; valve engineering services; consulting and project management services for the energy industry, namely, process optimisation, asset integrity management services, and project document control services; provision of computerized engineering management systems in relation to logistical, operational and efficiency in the fields of oil and gas exploration and production, renewable energy and power generation; technical writing; writing computer software; editing of computer programmes; engineering lifecycle integrity services, namely, monitoring,

inspecting, assessing, maintaining, repairing and advising in relation to the safe and effective functioning of machinery used in the field of oil and gas exploration and production, renewable energy and power generation; design and development of lifecycle management software; inspection and calibration of safety systems in the field of oil and gas exploration and production, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; advice and information in the field of oil and gas exploration and production.
